STUDENT'S COUNSELOR

Safety of students is one of the important concerns of the University Grants Commission (UGC). Therefore, the UGC formulated guidelines for students' safety on and off campus of Higher Educational Institutions (HEI). One of the important constituents of the guidelines for HEI was to mandatorily put in place a 'Student Counseling System' for effective redressal of grievances and challenges faced by students. As per the direction of the UGC, Meenatchi Physical Education College- Thathanur has constituted a Student Counseling System for creating a platform for students to interact and share their problems with the College authorities at various levels. The College involves teachers who act as mentors, guides, and sometimes local guardians of students. These faculty members interact with students and try to cater to their emotional and intellectual needs. They also guide students on their career prospects. The functioning of the Student Counseling System of the College is as follows:
